

**Power Point: Guiding Part II: Basic Techniques**  
**Chapter 4.1.5**  
**Photo Descriptions**

**Slide 6:**

**Photo description: A SSP converses with her DB client (not fully shown); notice the DB's left hand tracks the SSP's right hand to listen.**

**Slide 8:**

**Upper photo description: In a grocery store, at left a DB woman with a cane walks down an aisle with her SSP, at right. The DB woman's left hand is at the elbow of the SSP.**

**Lower photo description: The same women, in the same location, a few seconds later. When the SSP moves, the DB woman senses and moves along with her in the same direction.**

**Slide 11:**

**Photo description: A close-up view of a DB client's hand on her SSP's elbow.**

**Slide 12:**

**Photo description:** At a pathway next to the shoreline, at left a DB woman walks with her SSP; her left hand is on the SSP's elbow.

**Slide 13:**

**Photo description:** On a pathway next to the shoreline, at left a DB man with his cane walks with his SSP; his left hand is on her elbow.

**Slide 18:**

**Photo description:** With her SSP (partially pictured) on the left, a DB woman uses her cane to locate the curb. A pink oval pinpoints the cane end hitting the edge of the curb.

**Slide 21:**

**Photo description:** At right, a DB man with tunnel vision, using a cane (not pictured) with his left hand, walks with his SSP outside. He checks with his SSP by grazing his right arm against the SSP's arm, highlighted inside the pink circle.

**Slide 23:**

**Photo description:** At left, a DB woman with blurry vision has a cup of coffee in her left hand as she walks outside with her SSP.

**Slide 29:**

**Photo description:** By using hand-on-shoulder method, the DB woman at left uses both her cane and the SSP's body as cues while walking.

**Slide 30:**

**Photo description:** At left, a DB woman with a cane walks with her SSP, at right. The SSP raises her right hand to inform the DB woman of something.

**Caption:** The SSP raises her hand to communicate and the DB woman responds.

**Slide 31:**

**Photo description:** At right, the SSP moves her right hand beneath the DB's left hand to communicate.

**Slide 32:**

**Photo description: At right, the SSP explains to her DB client that she is watching for cars.**

**Caption: Looking for cars.**

**Slide 33:**

**Photo description: At right, the SSP moves safely across the street with her DB client; the client's right hand is on the SSP's left shoulder.**

**Slide 35:**

**Photo description: At left, the DB man listens to his SSP describe the street scene.**

**Slide 36:**

**Photo description: At right, the SSP indicates the direction to look; both the DB man and the SSP have their heads turned to their right in the same direction.**

**Slide 37:**

**Photo description: The SSP signs tactually "No cars" to the DB man.**

**Slide 38:**

**Photo description: Both the DB man and the SSP walk across the street.**

**Slide 41:**

**Photo description: At right, the SSP alerts the DB woman that the aisle is narrowing by gently pulling the DB woman's arm closer to her body. The DB woman instinctively moves closer to her SSP.**

**Slide 48:**

**Photo description: At right, the SSP instructor communicates with the SSP student as they walk through an aisle at a grocery store.**

**Caption: Information while walking through the store.**

**Slide 49:**

**Photo description: At a deli counter in a grocery store, two SSP students practice describing or giving visual information to each other.**

**Slide 50:**

**Photo description: At left, the DB instructor shares feedback with an SSP student.**

**Slide 51:**

**Photo description: Two standing women engage in a discussion about their SSP experiences.**
