

PowerPoint: Low Vision Part II

Chapter 4.1.1

Photo Descriptions:

Slide 5:

Photo description: An out-of-focus photograph, where the background is greenish and there are two unidentified tan areas on the left.

Slide 6:

Photo description: The same photograph, now in focus, shows a picnic table with attached benches on a green lawn.

Slide 10:

Photo description: In the center foreground, the SSP signs “Yes, that’s it” to her DB client when reaching for a package on the bottom shelf in the aisle.

Slide 12:

Photo description: Looking down at steps and sidewalk path made from small pebbled stones, the viewer can barely make out the edges of two steps.

Slide 15:

Photo description: On a very poorly-lit stage, two women are standing.

Slide 16:

Photo description: A circular image, with fuzzy edges, of one of the poorly-lit women.

Slide 19:

Photo description: A wintry scene, with trees and a house covered in snow.

Slide 21:

Left photo description: At a park, a DB man with a cane wears a baseball cap with a deep visor as he listens to his SSP.

Right photo description: At a job site, a DB woman wears safety glasses, a work apron, and a cap with a visor.

Slide 22:

Left photo description: From inside a store, looking out to the bright daylight, it is hard to see what object a door handle is depicting.

Right photo description: From outside the store, the door handle's shape is revealed to be a bunch of grapes carved from wood.

Slide 24:

Photo description: While seated in a restaurant or café, in front of bright windows, a DB woman converses with someone (not pictured).

Slide 27:

Left bottom photo description: A Caucasian man is signing while standing outside on a patio with his back to the sun; his hands are barely visible against his white T-shirt..

Right photo description: In a simulation of tunnel vision using the same photograph, only the man's hands are barely visible against the white T-shirt.

Caption: Here the pale signer is wearing white. The sun is behind him. Add tunnel vision and it becomes very difficult to follow his signs.

Slide 28:

Left bottom photo description: The same Caucasian male signer is outside, with the sun shining on him; he is wearing a blue T-shirt.

Right photo description: In a simulation of tunnel vision, the male signer is easier to see.

Slide 29:

Photo description: In a simulation of poor vision (out of focus), a Caucasian female is signing while wearing a black top and a wide white scarf draped over her chest; it is hard to see her signs.

Slide 30: Clothes

Photo description: An SSP and a DB camper, her face painted, pose for the camera. Both are wearing dark, non-patterned tops that contrast with their skin color.
