

**PowerPoint: Pro-Tactile: DB People at the Center
Chapter 4.2.1
Photo Descriptions**

Slide 10:

Photo description: At right, a SSP guides her DB client's hand toward the elevator button.

Slide 12:

Photo description: At center, a DB man walks between two cars and prepares to open the door, as his SSP, in the background, looks on.

Slide 15:

Photo description: At right, the SSP describes something to her DB client outside at a park.

Caption: Jorge (left) uses both touch and vision while listening to Lee.

Slide 19:

Photo description: At left, a DB woman inspects a school backpack while her SSP points out the details.

Slide 20:

Photo description: At left, a DB man inspects a travel kit while his SSP helps by holding up the travel kit.

Slide 21:

Photo description: At left, a DB man inspects a tool while his SSP waits.

Slide 22:

Photo description: At left, a DB woman touches the artwork on the wall while her SSP describes the details.

Slide 26:

Photo description: At left, a DB woman inspects bananas while her SSP is standing by with her hand touching the DB woman's shoulder.

Caption: Here the DB woman uses a pro-tactile approach to choosing bananas while the SSP stays in touch.

Slide 27:

Photo description: Four people are standing in a room; two DB people are conversing while their SSPs are standing nearby in touch.

Caption: Notice the SSP on the left staying in touch with the DB man. The SSP on the right is doing the same, while the two DB people are using one hand to talk one to listen and do back-channeling.

Slide 32:

Photo description: Three people are in a triangle; on the left, a sighted hearing person is participating tactually in a conversation with two DB people.

Slide 33:

Photo description: Two women are seated, in conversation. At right, a sighted hearing person listens tactually with a DB woman, at left.

Slide 34:

Photo description: In a triangular format, at left a standing DB woman is discussing a topic with two sighted people: at left, a Deaf person sitting down on a chair, and at center, a hearing person standing. All three are in touch tactually.
